## Handover Venues

# What is FIG?

FIG is the premier international organisation representing the interests of surveyors worldwide. It is a federation of the national member associations and covers the whole range of professional fields within the global surveying community. It provides an international forum for discussion and development aiming to promote professional practice and standards.

FIG is a UN-recognized non-government organisation (NGO), representing more than 100 countries throughout the world.

Members of FIG consist of:

- member associations – national associations representing one or more of the disciplines of surveying;
- affiliates – groups of surveyors or surveying organisations e.g. governmental bodies undertaking professional activities;
- corporate members – organisations, institutions or agencies which provide commercial services related to the profession of surveyor;
- academic members – organisations, institutions or agencies, which promote education or research in one or more of the disciplines of surveying.
