# Making the Campaign Work

## Need a variety of touch points to influence

- In many developing countries land issues are highly political and controversial.
- Therefore, drivers for change will have to be initiated through influencers at other entry points in the network of stakeholders across the land sector.

# The Perfect Storm of Change

**The time is right to launch a  
Global Security of Tenure Campaign**

A dramatic landscape photograph of a fjord. The water is dark, with a white wake from a boat in the foreground. The mountains are steep and dark, with some light reflecting off their peaks. The sky is filled with heavy, grey clouds, with a bright patch of light breaking through in the upper right. The overall mood is somber and majestic.
