# Activities for our profession

Common activities of all German professional associations (DVW, VDV, BDVI) to advertise our profession and to introduce students to the exciting world of geodesy

**@weltvermesserer** – social media campaign for young people with (fun) facts to geodesy, reports from students and much more.

**Arbeitsplatz Erde** – a website for students who are orienting themselves in the professional world. It makes the professional field of geodesy come alive and tangible in all its facets.
